

Xander Byrne

Astrophysics PhD Student

Institute of Astronomy,
Cambridge, UK 
xbyrne@ast.cam.ac.uk 
xbyrne.github.io 
0000-0001-9488-238X 

Research Interests

- Exoplanet composition and habitability
- Polluted white dwarfs
- Data science & machine learning

Education

Ph.D. in Astronomy, Institute of Astronomy, University of Cambridge 2023—
Dissertation: *Big-data insights into the white dwarf population*.
Supervisor: Dr Amy Bonsor

M.Sci in Natural Sciences (Astrophysics), University of Cambridge 2019–23
Graduated 1st class with distinction.

Publications

- **X. Byrne**, A. Bonsor, L. K. Rogers et al. (2024). *Semi-supervised spectral classification of DESI white dwarfs by dimensionality reduction*. MNRAS, in press. doi:10.1093/mnras/stae2478
- **X. Byrne**, R. A. Meyer, E. P. Farina, et al. (2024). *Quasar Island - three new $z \sim 6$ quasars, including a lensed candidate, identified with contrastive learning*. MNRAS, 530(1), 870-880. doi:10.1093/mnras/stae902.
- **X. Byrne**, O. Shorttle, S. Jordan et al. (2024). *Atmospheres as a Window to Rocky Exoplanet Surfaces*. MNRAS, 527(4), 10748-10759. doi:10.1093/mnras/stad3914.

Awards, Grants etc.

- **MASt/Part III Bursary** (£3500) Institute of Astronomy
Funding the conversion of my Masters' thesis to a published paper over the course of a summer internship.
- **MPIA Summer Internship** (€3750) Max-Planck-Institut für Astronomie
Funding a summer internship: *Searching for Lensed High-Redshift Quasars using Unsupervised Machine Learning*.
- **Winifred Georgia Holgate-Pollard Memorial Prize** (£1650) University of Cambridge
Awarded for the best performance in the Natural Sciences (Astrophysics) examinations.
- **John Spencer Wilson Prize** (£500) St Catharine's College, Cambridge
Awarded in recognition of exceptional performance in the Natural Sciences examinations.

Awarded Telescope Time

As Co-I:

- *Characterising a $z \sim 6$ gravitationally-lensed BAL quasar candidate*; PI Meyer
2.9h VLT/X-Shooter spectroscopy (113.26CY)
- *Measuring the mass of the SMBHs powering two lensed $z \sim 6$ quasars*; PI Meyer
4.23h Gemini (DDT) FLAMINGOS-2 spectroscopy (DT-2022B-029)

Technical Experience

- **Programming Languages:** Python, C++, MATLAB
- **Astronomy Software:** EsoRex, EsoReflex, DS9, TOPCAT, IRAF, PyTorch, TensorFlow

Teaching

- Supervisor**, Part II Astrophysics, University of Cambridge 2023—
- Conducted small-group teaching, marking solutions
 - Relativity* (GR): 8 students
 - Stellar Dynamics & Structure of Galaxies* (orbits & potentials): 8 students
 - Produced popular revision notes (~ 2500 website hits per year)

Talks

Invited Talks:

- ExoCoffee – MPIA, Heidelberg** Feb 2024
Atmospheres as a Window to Rocky Planet Surfaces
- Data Intensive Science Seminar Series – Maxwell Centre, Cambridge** Feb 2024
Contrastive Learning and High-Redshift Quasars
- Physics Evening – St Catharine's College, Cambridge** May 2023
Worlds Anew: Exoplanets and their Characterisation

Contributed Talks:

- Wednesday Seminar Series – Institute of Astronomy, Cambridge** Oct 2024
Spectral Classification of White Dwarfs by Dimensionality Reduction
- Astro Data Science Discussion Group – KICC, Cambridge** Jan 2024
Contrastive Learning and High-Redshift Quasars
- Galaxy Coffee – MPIA, Heidelberg** Sep 2022
Searching for Gravitationally-Lensed High-Redshift Quasars with Unsupervised Machine Learning

Professional Service

- Organiser, Wednesday Seminar Series** 2024—
A long-running seminar series given by PhD students and postdocs at the Institute of Astronomy.
- Organiser, PhD/Postdoc Jamboree** Oct 2024
A social 'introduction' event for the Institute's PhDs and postdocs.
- Tech Assistant, IoA50 conference** Jul 2024
Assisting speakers at a large conference with presentations, mics etc.
- Organiser, Undergraduate Journal Club** 2023–24
A journal club for undergraduates, also offering career advice.

Outreach

- The Naked Scientists, BBC Radio 5 Live** Mar 2023—
National radio show and podcast. Several appearances both live and in pre-recorded segments
- Public Open Evenings, Institute of Astronomy** 2022—
Visits for the general public, involving a public lecture and stargazing.
- Cambridge Hands-On Science (CHaOS) event: Crash Bang Squelch** Mar 2024
Outreach talk: *How to find an Alien Planet*
- Birmingham Schools Science Network** Sep 2023
Outreach talk: *Worlds Anew: Quasars, Exoplanets, and the Search for Life.*
- HiSPARC Project** 2018–22
Teaching sessions and sparking research projects for high-school physics students, particularly girls
- Varsity Sci 2021** Oct 2021
Outreach talk: *The Messier Catalogue: 110 objects in 10 minutes.*
- Cambridge University Physics Society** Aug 2020
Outreach talk: *Negative mass: matter that's lighter than light.*

Press Coverage

- **NOIRLab Stories Blog:** *AI Aids in Search for Cosmic Gems in Ocean of Data*
